Dear Readers

The month with one of the most important national holidays has arrived, Staff Day, 5th of September. On this day, a diplomat, a scholar, an ex-president of India and above all, a teacher was born.

We celebrated this Auspicious day every year, with our most sincere appreciation and gratitude for all the hard work, dedication and care showered on us by the admirable staffs and teachers. Being away from home and spending most of the year in school, the teachers and staffs play a huge role in our growth to become a responsible adult of tomorrow. As the adage goes, "A teacher affects eternity. You can never tell where his or her influence stops."

Personally, whenever I feel down or am on the verge of giving up, the dedication and hard work of the staffs has always inspired me to keep going. Your patience towards us always leaves us baffled. It has always motivated me to become a better person. And I want to use this platform to thank each one of you. You all have moulded us in one way or another, which will be a part of us for all the times to come. I want you all to know that all your hard work won't go in vain, and that it is appreciated tremendously.

And for this day, my fellow students of class XII have been preparing a diverse cultural dances to express our genuine gratitude to you all. This issue of Echo is dedicated to all of you. The pages hold the messages and tribute to you all. The untold things confessed, Sincerity bestows these pages. Hope you all enjoy the day.

*Thank you for teaching us how to read and write,
For guiding us to distinguish between what's right and wrong.
For allowing us to dream and soar like a kite,
Thank you for being our friend, mentor and light.
Happy Staff Day!*

Dr. Sarvepalli Radhakrishnan
Former President of India

In India, 5th Sept. is celebrated as Teachers' Day as a mark of tribute to the contribution made by teachers to the society. 5th September is the birth anniversary of a great teacher Dr. Sarvepalli Radhakrishnan, who was a staunch believer of education, and was a well-known diplomat, scholar, the President of India and above all, a teacher. When some of his students and friends approached him and requested him to allow them to celebrate his birthday, he said, "instead of celebrating my birthday separately, it would be my proud privilege, if 5th September is observed as Teachers' day". From then onwards, the 5th of

September has been observed as Teachers Day, in India.

In the year 1965, some of the prominent students of Late Dr S. Radhakrishnan organised a gathering to pay obeisance to that Great Teacher of repute. In that gathering, in his speech Dr Radhakrishnan expressed his deep reservation regarding his birth anniversary celebration, and emphasised that his birth anniversary should be celebrated as 'Teachers' Day', by paying homage to other Great Teachers of India and Bangladesh. Since the year 1967, 5th September is celebrated as Teachers' Day till date.

A Special Soul

-Karma Tsokey, XI D Comm.

I quote "teacher opens the door, but you must enter by yourself" I unquote.

First and for most, we all want to wish you a very very happy staff day and hope this day would be a wonderful day and a day full of memories.

Teacher, a light for a dark place, a guide to a lost being, a second parent to a child and a special soul for us.

The combination of a teacher and student is like a pizza with double cheese, a popcorn with a pepsi and a maggi with chips.

In this big blue busy world, some choose teacher as their job. But all the educated persons were once a student and that shows we all have our teachers and what we are is all by their efforts and hardwork. So, it becomes our precious duty to feel the gratitude, and not only by feeling it, we should show it out in the form of obeying them and by following their advice. But by knowing it, we insist on doing the wrong.

We keep on doing the wrong cause we don't feel the gratitude. And as we know, feeling of gratitude is the essence of our life and if we don't do that we are not living a meaningful life. So, it's not too late to feel it but if not now than never. So better late than never.

"Dead people get more roses than the living ones, because regret is greater than the gratitude"

So not to regret later, we should feel the gratitude from now on. Thank you and sorry are two small words that makes a relationship stronger. Bout we students never let this words come out for teachers. We should overcome this problem. We should say it with no hesitation as it's also a part of gratitude. And it will always get you in a bright sight.

Teachers are really like our parents, we share our happiness as well as our sorrows together. They are the path we walked upon. We should make the path stronger rather than letting it go weaker.

And lastly, we all are immensely thankful for the uncountable love and care towards us. We always have you behind us and we will

always be beside you.

We are highly sorry for the scars we have made and the tears you hide. It will be really hard to forget to remember you and your smile in the hardest time. We feel really very special to have special souls like you.

Thank you for your smile and your precious helping hand.
Thank you!!!

Bonne Jounee Des Enseignants

- Sonam Choedon, XII P Comm.

The day comes once a year, where we could gratefully make every staff feel that they are the one of the most beautiful and precious gift in our lives. Though some of the students maybe a headache for them but during that day even the headache turn into smile. And apologies are accepted. 5th September is not only an enjoyment day but also a day when we show our humble appreciation to our teachers. Students should always feel the greatness and hardwork of the teachers and we

should always respect our teachers as our own parents and make them feel proud. But, there are some students who never respect their teachers because they always explore the negative side of the teacher. And those students will never achieve anything in life until and unless they improve or change their mind set towards the teacher. I think those students are narrow minded who blame their teachers just to escape from that particular situation. Last but not the least, we consider today as the most beautiful time of the year as every student are getting the chance to thank all the staff for their great effort to make us a good and a self-reliant person. THANK YOU.

Thank you Staff

- Tsering Dolker, XII D Comm.

It's the time of the year when we think about what we are thankful for. And while some words are spoken in thankfulness, a lot goes left unsaid.

I'm sure there are days that cause you to question if any of your work is making a difference to your seemingly unappreciative students. I want to assure you in this letter of

your vast power of influence. Believe me it really makes difference and that makes your job one of the most important jobs in the world amidst the light remuneration, you understand the grave importance of your occupation and you do not take that responsibility lightly.

Thank you for your patience. Thank you for molding the young minds. Thank you for swallowing every negative generalizations people may make about you and knowing in your heart that what you accomplish in school is worth it all than some. Without you, we would have been lost, thank you for guiding us, inspiring us and making us what we are today. Happy staff day

We are grateful

-Tenzin Wangmo, XII B Sc.

“Teachers appreciate being appreciated, for teacher appreciation is their highest award.”

- William prince

Throughout the year, we indeed realize that it is easy to misbehave and spot the bitterness in your behavior but it is difficult to realize

the patience you have while you were dealing with us. You guys have been an epitome of strength and a great pillar of support to all of us. Such that you have been the motivational spirit for us in all respect.

And for that we are truly grateful and we sincerely thank the teachers for your valuable contribution, guidance and encouragement that have given new impression to our work.

We truly appreciate you for understanding the situation fully, for spending your time with us and for sharing your values with us. Every moment is being cherished.

Thank you for being an indispensable part of our lives.

Wish you a happy staff day.

The role of Teachers

- Tenzin Yangkyi, XII S Sc.

History is full of examples of kings who had the company of great person who were their guru, philosopher, guidance and administrators. The role teachers play in our lives has become

significantly greater than any other times in our history.

Today many of us live in school, distance away from the place where we were born or grew up and separated from our families. But their presence just makes me feel the same way that we spend with our families. They help us in distress and on decision making and lighten our burden.

A teacher can reflect back how we came in the world. They also bring out the positive side in our nature that we would have never discovered. They inspire us to achieve our dream and this unconditional love nurture us and show us the right way to success.

My School parents

- Tenzin Dasei, IX S

In this universe everybody has parents. I also have one. Some are dead and some are alive. Mine are both alive. I left my hometown and came here to study and in this school, I got so many parents. I already recall all the staff as my parents because teacher teach-us, friends care for us, home mothers

look after us and cook for us and never let us be hungry. Nurse takes care when I am sick. They are the reason why I recover from the illness. You all are my big-gun. You always advise us not to be slandered, knavery etc. You teach us every word evidently that's why because of you I am on the right way. We have contempt and make you sad, I am really sorry from the bottom of my heart. Today is your day so I want to wish you all a very happy staff day.

May you all live al long and a healthy life. Love you all.

The essential ONE

- Tenzin Choezin, VIII S

I was about to fall,

On the wrong side

When someone came and

Helped me change

I was once a task,

I felt like giving up

But then someone came and

Made me strong

I cried and cried,

Alone in the darkness,

*When a light came and
Helped me stand*

*Stuck in the middle of the road
I was in a chaos
When a person came and
Guided me through the path*

*My heart was broken.
No one to support me,
When a rainbow appeared and,
Made my problems vanish*

*The guidance the person gives,
The support the person gives
The essential one in my life,
None other than my beloved
teachers,
Thank you from the bottom of my
heart.*

Undeniable hardworking Teachers

We are able to explore with some
lights
These lights are nothing but the
love, the friendly rapport,
parental care,
the feeling of belongingness,
memories, hard work, that you've
provided us*

*It would be a crying shame if we
disperse with no 'thukjes'

To our education,
That is their passion,
And our liberation
Their sincere kindness,

Whatever I am now has a story behind,
I was seven years old and it was my first day-
at school, I tightly grabbed my mother's finger,
I was crying and was afraid to let her go.

In a sudden, I was with someone else holding my hand and all my fear was gone.

She wiped my tears and took me to class.

It's when my brain started to work,
I understood that a teacher is the-second mother I had.

I'm glad that I lived under your guidance.

'Teachers' your efforts have made me a strong person.

You taught me all, all you know.

All the manners and values I have are-

just because of you.

I was growing up and through all my life, 'Teachers'

You showed me the right path of the road.

'Teachers' you all spend your whole life giving quality-education and pushing us for the best.

Like a coconut tree, I have reached height,

For the determination and strength, you all are-my lifetime guru, which I can never forget.

For you had given me the power of love, strength, hope and care. 'Teachers' you all are my core of hearts,

And on this special moment, 5th September;

May you smile and laugh like you never did, I on behalf of all the Bylakuppe students would like to Wish you a "happy staff day", And thank you for everything.

**Tremendous love to our
Second Parents**

-Deckyi Dolma, XII B Comm.

How can we survive with half soul?

What if the path to the future is blind?

What if we give up at the last moment?

What happens, if our track is wrong?

We all get a man with open heart,

Man with full of patience, full of determination.

They motivated us with strong feeling of love,

Even if the student was the naughtiest.

They give us their soul to make difference,

They guide for the future with alternative choice,

They teach us, not giving up is the most challenging,

They bring us back on the right track.

*When the baby-bird is on the nest,
Baby-bird wouldn't feel the value of nest.*

*When the baby-bird is on the muddy area,
Bird will realize the worth of nest.*

Sometimes, we tend to forget the worth,

We don't learn and listen to your word,

And we tend to feel more independent.

The time when we realize the worth, it's already late!

This is the platform where we can thank,

Thank you for your determination, and care.

Thank you for helping us and standing side by side.

Thank you for keeping us your first priority.

Teacher**-Tenzin Nyima, VII S**

*To whom I should believe the most,
 Should I believe my enemy?

Teachers' Day**-Tenzin Rigchok, VIII S**

*A teacher has a special place,
 in every student's heart.
 A teacher teaches from her heart,
 with lots of love and care.
 Every great person is taught by a
 teacher,
 who guided him to become great.
 She teaches us from right to wrong,
 inspires us to be strong.
 She cares in every way,
 in my heart she will always stay.
 So thank you for doing everything,

 everything.

 Expressing all knowledge to
 student's heart
 Abyss us with all information
 Charm us with their determination
 Hides all their problems and
 instead
 Embrace us with love and
 dauntless
 Remind us that we must be fearless.
 Sturdily they look after us
 They'd be our mother, nurse
 And all those staff whom we don't
 know much-
 For all they do, their intention is
 For all the students so that it might
 help us.
 Do all the little things that teachers
 And staff expect from-
 you and believe me, this will change
 you!!!
 HAPPY STAFF DAY!!*
